is organising

A VIRTUAL INTERNATIONAL WEBINAR

ON

**‘GO GREEN: RESPONSIBLE PRODUCTION AND
CONSUMPTION’**

**17TH SEPTEMBER, 2022
4.30 P.M .TO 7.00 P.M. (IST)**

About College

Gokhale Education Society's SMRK-BK-AK Mahila Mahavidyalaya, Nashik is the pioneering women's college in North Maharashtra, permanently affiliated to the S.N.D.T. Women's University, Mumbai. With glory, grace and galore; it has stepped into the 37th year of its meaningful existence. The institute successfully run 33 educational programs through five streams under one roof. It has efficient Quality Management Systems such as IQAC, QCC and ISO for sustenance of excellence. We have been successful in developing sound academic, industrial and social linkages with other institutions and the society at large to undertake Community outreach program and industrial trainings. Institute have a dedicated 'Department of Physical Education and equipped library with E-Sources, E-Books and E-Journals.

As a initiatives towards environment conservation the institute implements eco-friendly practices like rain water harvesting, installation of solar panels, bio-waste management through vermi-composting, organically grown kitchen gardens, plastic free campus etc. Along with green campus the institute also has medicinal plant garden. These green practices helps to imbibe environment awareness among the students. The proposed virtual International Webinar is a step towards educating the citizen all over the globe regarding responsible production and consumption of resources. The webinar is a collaborative venture of the 'Home Science Faculty' and 'HAN' of our institute.

About the Webinar

Economic and social progress over the past century has been accompanied by environmental degradation that threatens every system upon which our future development and survival depends. The growing global population with deteriorating natural resources and increasing urbanization is leading to environmental imbalance. Astronomical environmental problems has lead to more people to live on less water and other depleted resources. A lot is being done on this but nothing is enough as we are running out of time. Every step in this direction of enhancing the eco-balance is the need of the hour. There is an urgent need to opt for more sustainable approaches from production to consumption.

Responsible consumption and production is about promoting resource and energy efficiency, sustainable infrastructure and providing access to basic services, green employment and a better quality of life for all. Its implementation helps to achieve overall developmental plans, reduce future economic, environmental and social costs, strengthen economic competitiveness and reduce poverty.

There is a need to focus strongly on the responsible production and consumption of each product, which is possible by involving everyone from the producer to the final consumer. This includes educating consumers about sustainable consumption and lifestyle, providing adequate information through standards and labels. Since sustainable consumption and production is focused on "doing more and better with less", the objective of the "Go Green" webinar is to trace the knowledge and implementation of green practices that can lead to greener and more environmentally responsible decisions and lifestyles Thus preserving the natural resources for present and future generations for sustainable living.

Sub Themes:

1. Conservation of water as a resource
2. Green Cover

Objectives

To create the awareness among the society at large for sustainable living and showing avenues for environment preservation. Educate consumers on sustainable consumption and lifestyles, providing them with valuable information

Organizing Committee

Organizing Director: Prin. Dr. Deepti Deshpande
(Director, International Webinar)

Co-Ordinator HAN: Vice Prin. Prof. Dr. Kavita Patil

Co-Ordinator webinar : Ar. Sanjay Pabari

Convenor : Dr. Savita Borse

Co-convenor : Ms. Pradnya Abhyankar

Advisory Committee

Prin. Dr. Deepti Deshpande (Director, International Webinar)

Vice Prin. Prof. Dr. Kavita Patil

Mr. J.B. Bhatambrekar

Resource Persons

Dr. Rajender Singh

Dr Rajendra Singh is an Indian water conservationist and environmentalist from Alwar district, Rajasthan in India. Known as the "**Waterman of India**", he has been honoured with the **Magsaysay Award** in 2001 for his pioneering work in community-based efforts in water harvesting and water management. He received Stockholm Water Prize in 2015 for his contribution in the field. He runs an NGO called 'Tarun Bharat Sangh', which he founded in 1975. He is a founder member of the NGO called "Flow Partnership" which aims to counter the negative effects of soil erosion and flooding. His significant contribution in saving the natural resources has empowered the young Indian minds.
