15. Multidisciplinary / interdisciplinary

Being affiliated to SNTU University, Mumbai, our College is dependent on the University regarding any system for Multidisciplinary and/or Interdisciplinary structures. However, we are a multidisciplinary institution offering education in areas like Arts, Fine Arts, Home Science, Commerce and Accountancy, Management Studies etc. With SNTU University, we are fortunate to have courses that offer education in such diverse fields as Food and Nutritional Science, Textile Science and Apparel Design, Human Development, Resource Management etc.

Various faculties in our institution offers flexible curricula allowing students to choose their subject for specialization, and also allowing choices between subjects under the same specialization, thus ensuring both flexibility and innovativeness. We also offer certificate and diploma courses like Fashion Designing and Garment Manufacturing, Interior Designing and Decoration, Computer Applications ensuring the innovativeness in education. The institution holds Yuvati Melawa & Bal Melawa for the well-being of the concerned sections of the society, Blood Donation Camp for social health. One of our most significant contribution as an extension activity is that, every year, our college donates various things like note-books, school-sacks, and other stationery to school children on the occasion of Shahu Maharaj Birth Anniversary and Savitribai Phule Birth Anniversary. The Dept of Food and Nutritional Sciences organizes Nutrition-Week each year spreading awareness of nutritional food; teachers of the same Department also visit a village each year to spread awareness of malnutrition among the villagers.

Following the University guidelines, our faculty members prepared 12 short-term credit based courses of 2/4 credits across the disciplines for further action by the University. We also encourage our students to participate in online courses offered by COURSEERA, CHETANA, and MOOCs.

Our students are required to complete project work in their disciplines; however, we have shifted focus to emphasize interdisciplinary and strictly research based projects to be done by the students to promote interdisciplinary and multidisciplinary education in view of NEP 2020.

Feeling the need to start a value-based educational program, our parent institution, Gokhale education Society, launched a very innovative course titled 'Yatharth'. In this course, the visionary Secretary and Director General of the Society, Sir Dr M S Gosavi, speaks for about 20-30 minutes on the occasion of a special day celebrated in our country, detailing the significance of that day and the values associated with it. The talk is broadcast on YouTube and the students are allowed to watch it who then have to answer a few simple questions to check their comprehension by their class-teachers.

Our educational exhibition called SRUJAN is organized every year to create multidisciplinary interests among students. For skill development college runs certificate o/Diploma courses in Fashion Designing, Interior Designing and Decoration and Computer Application. Under our Entrepreneurship Development Cell, we invite a successful entrepreneur to interact with students, who come from many different disciplines. We organize various workshops that can educate vis-à-vis daily practical life, like Financial Literacy etc. Our multidisciplinary approach helps us organize Sangeet Mahotsav (Department of Music), and Rangasparsha (Department of Fine Arts) every year.

16.Academic bank of credits (ABC):

The ABC platform is a virtual database of credits earned by each

student individually. As mandated in NEP 2020, the initiative is meant to facilitate credit transfer of students, allowing them to move across various streams and higher education institutions with ease.

As per the circulars received from S.N.D.T. Women's University Mumbai, creation of ABC ID is made mandatory for the students, from the academic year 2021-22. In our institute, a committee for ABC ID has been established in June 2022. The committee consists of a coordinator, an In charge, Class teachers and concerned office staff as members of the committee.

All members of the committee have attended online campaign program organized by SNTD Women's University, Mumbai on 12th June 2022. ABC ID portal has been created by SNTD Women's University where our institute registered for uploading students' credentials regarding ABC ID.

During Covid-19 pandemic class wise WhatsApp groups of students were created to share instructions and various circulars which were received from the Department of Higher & Technical Education and the University from time to time, as a part of teaching learning process. The same groups continued to receive the concept of ABC ID. The instructions received from the university regarding ABC ID and the videos explaining creation of ABC ID were posted on these groups. The institute has also taken sincere efforts to register passed out students on Digi locker. Till date 86.13% of the passed out students of 2021-2022 registered their ABC ID successfully on DIGI Locker.

Faculty members have been working as members on Board of Studies on various faculties of SNTD Women's University, Mumbai. They are involved in designing U.G. and P.G. curricula of respective subjects at University level. The institute offers skill based Certificate and Diploma courses to give horizontal mobility to the students and faculty members are also involved in framing the syllabus for these courses.

Student centric teaching-learning methods are used for enhancing learning experiences. Institute gives academic freedom to staff for making teaching-learning process effective. Duty leave is granted to staff for attending Faculty Development Program, Short Term Training Courses, Orientation/Refresher courses, for paper setting and Centralized Assessment programme.

In our institute, students admitted from the rural areas are

substantial in number and many of the students do not have facility of internet and smart phones. For such students, the college has made required infrastructure available and committee members have been helping them in creating ABC ID. The committee members are taking continuous follow up so as to complete the procedure of registering for ABC ID for 2021-22 by the end of March 2023. Till date 86.13% of the passed out students of 2021-2022 registered their ABC ID successfully on DIGI Locker. And the procedure for 2022-23 has been completed 100%.

17.Skill development:

The institution has been a pioneer in providing skill based education to students through formal and informal methods. Below are a few of the methods adopted by the institution. The programs run by the institution are skill based which give the students a formal training in the respective fields. The teaching learning process includes various methods like Role plays, Workshops, Debates, Internships, Seminars, Field visits, Guest lectures, etc. These methods help the students acquire soft skills

- Teamwork.
- Problem solving.
- Communication.
- Adaptability.
- Critical thinking.
- Time management.
- Interpersonal

The Institute has developed infrastructure like

- Developed computer labs with qualified staff for providing IT training to students.
- Labs and studios designed for developing vocational skills like Professional cooking, Textile and Fashion designing, Interior designing, Visual and Performing art like music, sculpturing, painting and many more.
- Incubation centers to nurture the entrepreneurial ideas of the students.
- Amphitheater for developing the skills of performing arts.
- A well-equipped Sports center for the students inclined towards sports like Cricket, Volley ball, Table Tennis, etc.

The institute facilitates the students to participate at all levels (local, university, district, state and National) in various competitions through the student's council enabling them to showcase

their skills and further enhance them through competitive atmosphere.

The institute has four major associations viz. where in the students enroll

- Commerce and Economics Association
- Home Science association of Nashik
- Kala Mandal
- Nature Club

These associations are formed with the aims and objectives to inculcate in the students. These associations conduct activities through out the year involving the students and, in the process, helping them acquire the required soft skills and vocational skills while making them responsible citizens with Values like peace, love, truth, life skills, etc.

The institute has initiated the process of implementing the NEP by being the first few institutes to prepare twelve (12) skill based courses with their structures and contributing to the pool of Programs of the SNTD Women's University under the SNTDWU-CHEITNA Pool of Courses. These courses are designed considering the need of the hour and all the required resources like experts and required infrastructure have been identified and activated. These courses shall be conducted in a blended manner.

The institute has initiated to implement two courses, viz - Communication skills and Sanskrit , both for two credits, from the Pool of courses from the academic year 2023.

18. Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

As we have already mentioned, our college is affiliated to the SNTD University, Mumbai, and all our courses, programmes, and Curricula are devised by the University. The SNTD University is supposed to implement the new Curricula from the academic year 2023-24. We will certainly incorporate all the aspects of the new Curricula in our pedagogical system.

However, it may be mentioned here that as part of our initiative and keen interest on integration of Indian Knowledge System into our Curricula, we have framed a 2 credit course in Sanskrit Language and submitted it to the University for their approval and further action.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

Our College is committed to impart quality education to girl students at UG and PG levels through the total involvement of the college management, students and the staff. The College has a very good infrastructure catering to the need for the same. We are also keen about overall personality development of our students. All our courses and programmes have objectives to achieve and the outcome in view; this is available on our website

<https://smrkwomenscollege.org/course-outcome/>. We have also established Linkages and developed MoUs with National/International, academic/research bodies, which can be accessed through the information available at <https://smrkwomenscollege.org/social-linkages-with-n-g-os-and-g-o/>. The college has internship programmes for students as well, whereby students are supposed to work for a few days or a month in a real situation. Through the linkages, MoUs, and internship programmes, our students get the experience of the functioning in the real world outside the educational world, and it also prepares them for the challenges they might face in their future career.

The college has a Career Guidance Cell named after Savitribai Phule, through which they are given actual training for appearing for various competitive examinations held by bodies like UPSC, MPSC, Staff Selection Board, Banking and many other. We have a well established Placement Cell as well, which provides students information regarding career opportunities, trains students in interview and group discussion techniques, organizes campus interviews by inviting various industries and private agencies offering placement services to the students, and also organizes activities and programmes on developing Entrepreneurship and self-Employment skills in students.

We have our Alumni Association as well, which allows us to present them as role models for our current students, especially through programmes like "Confluence- A Sangam" and also makes it

possible for us to get their help in placement services to our passing out students. Our college has a linkage with the Govt of Maharashtra's 'Career Katta', a scheme under which our students register for training through YouTube videos for competitive examination. Experts from a variety of fields serving or having served at the top positions guide students through these videos.

20.Distance education/online education:

Online Education

The institution has well established K-YAN system; an effective mode of learning tool with LAN attachment in every classroom. The laboratories are also equipped with LAN and projectors for effective teaching of skill based subjects as well. There are 134 computers available in our college. This enables the staff members for better teaching of concepts to the students. This was therefore an advantage in online teaching provided by the institution.

As online education has become the dominant form of distance education, new theories are emerging that combine elements of constructivism and technology. Online education has become a mode of education where knowledge is delivered through various medias comprising of audio, video, text, animation, chats with tutors or mentors, and virtual training given by teachers to the students. Our institution has been instrumental in shaping today's generation virtually also. Various online workshops, national and international webinars, teaching, teacher training programmes, annual sports meet, annual social gathering and annual prize distribution through several media platforms such as Zoom meetings, Google meet, YouTube live which were successfully conducted by our college. Skill based training programmes were organized online by the institution for the students by organizing National workshop on embroidery for the students. Programmes on MOOC (Massive Open Online Course) and students and staff had enrolled for the SWAYAM (Study Webs of Active learning for Aspiring Minds) programme of learning. The institution has taken special efforts even post pandemic, and the teachers were able to get a blended learning experience of the subjects they were teaching. This method of blended learning was found effective and was perceived better among students. The online education made it possible for the teachers to impart knowledge by providing puzzles, quizzes, animations, videos, podcast on the course content that was taught.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

IQAC has developed formats to enlist advanced learners and slow learners.

Every department identifies the advanced learners and slow learners.

Like all educational institutions in the country, our college was also affected by the COVID-19 Pandemic through the first half of the academic year 2021-22. Due to the same reason, the results of Term-I came out very late, as a result of which, we could devise the list of Advanced Learners very late. And there was hardly any time to frame any courses for Advanced Learners since the next Term started immediately. The same was the case with Slow Learners. The first term was completely online, so we could hardly organize any Remedial Courses for them, and during the second term the teachers were busy in completing their syllabuses and could hardly spare time for Remedial Teaching. Then also following measures were taken for -

- 1. Advanced Learners : Career Guidance and Placement Cell of our college organized online 'Stress Management- A step towards Success' on 16th July 2021 for Advanced Learners**
- 2. Slow Learners: Department of Hindi conducted programme for students to help slow learners for increasing creativity on**

30th June 2021.

3. Bridge Course : Department of Commerce conducted bridge course for F.Y.B.Com. students from 1st September to 15th September 2021

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Although the college, like all educational institutions in the country, was affected by the COVID- 19 Pandemic through the first half of the academic year 2021-22, the college has some very good and proven practices in use as part of Student-Centric Methodology. For Experiential Learning, we provide students opportunities like: Practical Training, Field Based Learning, Internship, Simulations, Role Playing, Apprenticeship, Student Teaching, UG Research, Group Learning, Presentations and Project Work. In terms of Participative Learning, the college has practices like Individual Presentations, Group Presentations, Brain Storming, Exhibitions, Case Studies, Puppet Shows, Surveys, Consultations, Excursions, Illustrations, Demonstrations, Memory Games, Display, Participation in cocurricular and extracurricular competitions, etc. For Problem Solving Methodology, the students are given tasks like Data collection and library work, Trial and error experimentation, Means and End Analysis, Difference Reduction Method, Theory and Practical Assignments.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Frequent Internal Assessment: Two unit tests in each semester for all theory subjects are held and the score is considered as Internal Marks in final assessment done and are submitted online through University Portal during the specified period allowed by University. Separate question papers are set for the same and examination is conducted in the same environment as of University Examination by preparing supervision chart. Teachers are asked to submit mark-lists after assessment before the given deadline.

Continuous diagnostic Internal Assessment for all practical subjects. Timely submission of practical work. Surprise tests, class tests are also conducted. Home assignments are also given.

Continuous Internal Assessment through various innovative and interactive teaching methods. Varied Student-centric techniques of assessment adopted: Project Presentations Role-Play Presentations Group-Presentations Viva on Projects Chart and Poster Competitions Class Assignments Quizzes Study visits Mock Interviews Seminar Presentations/Paper Presentations Workshops, etc.

The Institute ensures transparency by following various ways, like:
- Surveillance of CCTV cameras. - College level Examination Squad to ensure transparency. - Supervision strictly by teachers to ensure fairness. - Controller of examination monitors smooth conduct of the examination.

- For smooth conduct of internal examinations, Faculty-wise examination co-ordinators are appointed who are normally different from Examination Superintendent(s) for University Examinations. -

Students are shown corrected papers in their classrooms. - Examination related rules and regulations are displayed for students.

Confidentiality of question papers is maintained.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

Rules and regulations of 'SNDT Women's University' and 'Maharashtra Public University Act' are categorically followed for examination related grievances. Examination grievances, which are looked into by Examination Committee.

Grievances of various types including unfair means during examinations, Absenteeism during examination, Internal Assessment not cleared, Late appearance during examination, leaving examination mid-way due to fear of failure or for being unwell, etc. are looked into by Examination Committee.

Papers are impartially evaluated by the subject teachers within stipulated time span.

The teacher-student relationship is very healthy and open. Hence, most of the minor complaints regarding examinations are solved at the outset.

-The college gives utmost importance to examination related grievances and tries to resolve them as quickly as possible as follow sWritten complaint is taken from complainant .Through Examination Unfair Means Committee or Controller of Examination it is placed before management. After listening to both parties decision is taken and executed impartially.If necessary,aids like CCTV are used.

College takes immediate action for timely redressal of examination related grievances and protects the students from losing an academic term.

At the College Level, examination related grievances are resolved by way of:

Showing Internal test papers to the students in the class individually, and in case of any grievances in assessment, they are resolved by the concerned subject teacher.

Internal mark-sheets are displayed on Notice Boards.

If grievances are reported, they are taken care of by the Results Committee.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

College implements 'Zero Waste Campus' model as follows: 1. Solid Waste Management: I) Recycling of biodegradable waste is carried out as follows : Collection of biodegradable waste such as dried leaves in the college campus, food waste generated in the food science laboratories is done manually by using dust bins. Collected waste is dumped in the Vermi-compost pit having capacity 50kg bio-waste per day. Regular watering is done to keep waste moist. Earthworm culture is deposited in the pit & slurry of cow dung is poured on the solid waste to enhance the rate of manure production. Approximately, after 45 days manure is ready, which is further used as a bio-fertilizer for the plants in the college campus. II) Non-Biodegradable Waste: Collection of waste is done manually by using dust-bins. Waste is disposed through dumping it in a separate pit. Which is then taken away by private contractor. Paper waste generated by the institute is sent for recycling every year during vacations. 2. Liquid Waste Management: Liquid and solid waste is disposed through sewage system through a septic tank (for decomposition of solid waste) which is an underground chamber made of concrete. Overflow however is connected to corporation's sewage pipelines. 3. E-Waste Management The Major E-Waste such as out of use instruments/equipment's printers, electronic gadgets, kits are written off and sold. Old computers are donated to needy persons or schools in the vicinity.

Virtual Short Term Staff Training Workshop on 'MOOC Development'-

During the pandemic, teachers used the basic technologies such as videos, audios, tests, and online platforms for online teaching process.

Development of MOOCs (Massive Online Open Courses) could be the next step in online and hybrid teaching-learning. Considering the aspects of affordability, accessibility and flexibility offered by MOOCs, the Universities are also advancing MOOC learning platforms.

Being proactive, the IQAC in collaboration with the Research Cell organized a virtual Two-Weeks Training Workshop for teaching staff on 'MOOC Development' from 5th to

14th July 2021. The pre-preparation Sessions were conducted from 28th June to 2nd July 2021. 31 staff members participated in this

programme. Dr. Manoj Killedar-

Former Director, School of Science and Technology, YCM Open University, Nashik was the Resource Person who has developed more than 40 MOOCs successfully.

The entire staff training programme was a vibrant experience. This Virtual

Short-Term Staff Training Programme gave them an opportunity to change the sides and become students to explore the exuberance of online teaching platforms.

The Virtual Short-Term Staff Training Programme on 'MOOC Development' was successfully completed and it gave teachers a hands on training in developing micro-MOOCs using MOODLE site.
