Report of the 'Virtual Awareness Week'- June 2021

The IQAC in collaboration with five student centric committees of the college; namely, Health Care Unit, Student Counselling Cell, Internal Complaints' Committee, Nature Club and SAVITRI- Competitive Exam. Cell, organized 'Virtual Awareness Week for students of 12th Std. and F. Y. students of all faculties' from 21st to 26th June 2021. The sessions were streamed on YouTube at 10 a.m. to 11a.m. on all days. Google meet platform was used to invite the expert to create the session and also to facilitate interaction between organising members and experts.

During adolescence the basic human needs become stronger. In addition they are also in the process of getting adjusted to the social needs of 'belonging', 'power', 'independence' and 'enjoyment'. According to Piaget and other noted scientists the five leading characteristics of adolescence are biological growth and development, increased decision making, an undefined status, increased pressures and the search for self. There is an added angle of gendered outlook and social stigma for adolescent girls in this process of self-awareness.

Keeping the needs of the students at this crucial stage of their life, we tried to make valuable inputs available to them by incorporating the meaningful sub-themes in this weeklong programme, as given below:

- Hygiene Awareness,
- Nutritional Awareness,
- Gynaecological health & PCOS Awareness,
- Legal Awareness,
- Competitive Exam. Awareness,
- Environment Awareness.

Experts from the related fields with help of PPT presentations provided valuable virtual guidance to students. At the end of every session the experts vividly answered the queries of students highlighting the take home messages.

The sessions were streamed on YouTube so that more and more students could watch these presentations and also see them again with members of family, during the day. YouTube links of the session were circulated in the devoted class wise Whatsapp groups of students with help of class teachers.

A special Whatsapp group was created by IQAC coordinator to facilitate communication among the organising team members. Special attendance and

feedback links were created for each session to record the demographic information as well as responses of students.
