Good college

All are doing excellent job

Nothing everything is very nice

Use more practical teaching methods like case studies, presentations, and real-life examples to improve understanding.

Provide regular doubt-solving sessions and better interaction between teachers and students.

Improve classroom facilities and use digital tools (like smart boards, online resources) for better learning experience.

Nothing

Use of Interactive Teaching Methods

Incorporate discussions, case studies, presentations, and practical activities instead of relying only on lectures. This improves student engagement and understanding.

Integration of Technology in Learning

Use smart classrooms, online resources, videos, and digital platforms (like Google Classroom) to make learning

more accessible and interesting.

Regular Feedback and Support System

Conduct frequent feedback sessions from students and provide academic support such as doubt-solving sessions, mentoring, and counseling to improve overall learning outcomes

Make an effort to connect with each student.

Try to make the lectures two way interaction.

They should motivate and encourage the students to score more marks because it's win win situation for college and student itself.
